My dear Philosopher,

Many thanks for your most precious letter. Yes, Hamid Bey is here, also Hazim Bey formerly Mayor of Constantinople and Ismail Mushtak are here to spend a few days with us. Last night we dined about ten Turks together, and we had the greatest fun that any Turks abroad ever had. Of course we spoke often of you with the anticipation of the pleasure of seeing you again among us, and we clinked glasses to your health.

No doubt there are many Aubergines still in London, and if you wish to taste once more you had better come here and enjoy yourself.

With warmest regards,

I am as ever

most sincerely yours
