Dear Timur,

In accordand with your wishes, I am returning your manuscript on the Kazakhs for further revision. I do hope that you will revise this paper very quickly, for I would like to publish it in the second or third issue of Central Asian Survey. Several members of the editorial board have remarked about how appropriate an article it would make, and a timely one at that.

By now you should have defended your dissertation successfully. Jane Ann and I send our heartfelt congratulations. You must feel as if a great albatross has been lifted from your shoulders. Nigar must be very proud.

I hope that you have been receiving my packages of Newsletters. I am working on some other projects that will interest you, as well; I do hope that we shall be able to get together in the near future to discuss some of our ideas.

Please give my best to Nigar and your two lovely children. Jane Ann sends her best and looks forward to seeing you soon.

With warmest regards,

S. Enders Wimbush

Dear Timur

Jane Ann and I intend to be in Munich during the week of November 30th to December 3rd or 4th. We shall stay, I hope, at the Domus Hotel on Sanktannastrasse, where I usually stay when I travel to Munich. Will you be available during some of this time so that we may confer on projects of mutual interest? I would also enjoy seeing Babakurban and my many other friends.

I look forward to hearing from you soon.

With best wishes

Dear Timur:

It was wonderful to see you and Nigar and your lovely daughter in Washington some weeks ago, and to establish contact with you on both a personal and professional basis. I am particularly pleased to learn that you and David Morison have reached an agreement about the Uzbek tapes. I know you will be a great help to David in this very important enterprise.

I am sending you, under separate cover, a supply of past Communiques. Of course, if you and my other friends in Munich require more I would be delighted to provide them.

Perhaps you have heard rumors that I am leaving Rand to relocate in Oxford. In fact, this is true. Beginning about October 1, I shall direct the new Institute of Central Asian Affairs in Oxford where, among other things, we intend to produce a new journal on Central Asia. When I have more information I shall pass it to you immediately, but I want you to know at this time that I intend to rely on your contributions and those of my other good friends at R.L.

I still have not heard from Ziya Babakurban, although I understand he is in the United States. I look forward to seeing him in California.

Jane Ann joins me in sending you and your family our very warmest regards.

Yours sincerely,

S. Enders Wimbush
