Dear Timur,

Thank you for your letter of May 24. I am sorry to learn that you cannot stop over in Munich on your way to Istanbul, but I fully understand the pressures of your schedule.

If you would write me again toward the end of your military service I would like to try to arrange something for you in November when you seem to have more time. I think that interviewing you in June would be too complicated.

In any case, please keep in touch with me, and I shall look forward to seeing you in November in Munich if not earlier in Istanbul.

With best regards,

David Staats
