Dear Dr. Pava Teufel,

I am writing this line to let you know that I have decided to stay on here in C. for another week to see the big feast on Saturday next and the Secail. You were kind enough to say you would look in again to see me if you got time and perhaps you might get time when I stay on for such a long time.

I am preparing some articles for a big Danish newspaper and

or two of which are about the Khalifat-question and I would like so much to ask you a few questions regarding this. It is so difficult for a non-Moslem to get a real understanding of it.

One of the editors of the newspaper also asked me to send them correspondances about well known Turks if you should happen to meet such ones. I would like to write an article about you but I shall only do so if I get your permission (to do so) and also I can not do it properly before I know more about your official life. You said you would like to give lectures at some of the universities of Europe. I hope

we shall have the pleasure of seeing you in Copenhagen also: One of my friends - a philosopher - is a professor in Theologi at the University of Copenhagen, he is very very interested in the Sufisme and the philosophy of Islam so he would be sure to welcome you.

Yours sincerely

Agnes Clausen
